DETAILED ACTION

Response to Amendment

The declaration filed on December 14, 2005 under 37 CFR 1.131 is sufficient to overcome the PARAB et al (US 2002/0193438) reference.

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant has cogently traversed the obvious type double patenting rejection. Although Rajewski does identify cyclodextrins as taste-masking agents, this activity is based on the ability of the cyclodextrin to form an inclusion complex with the compounds whose taste is being masked. There is no teaching or suggestion that a cyclodextrin would form a complex with aripiprazole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
